

First: Stem cell therapy

- grow the proper cells and insert them

Second: Transplant of tissues.

Third: grown organs nerves etc.

This became a Pawn for manipulate "evangelical right"  
tied to abortion, to cause controversy

Europe and Asia

- gone forward with human trials
- cure blindness

All research was shut for 5 years

- Just now have approval for first human trial

California allowed stem cell research.

Letroline - cyanide ~~to~~ cure cancer was false

2-7-14 \* WATER

- Earth has limited water
- That amount does change overtime.

↑  
NOT

- what we have IS what we have always had.

\* WATER recycles and purifies:

About 9% of California's economy is Ag

13% of the US total of Ag for US.

Cali produces over 1/2 of fruits and nuts in US.

90% of US in artichokes

all avacado

almonds - all

California largest dairy producer in US.

2% of states \$6 trillion economy
