

Biology 3 1-17-14

Outbreak

Killed contagious on the loose

Jan 9th Swine flu 4 deaths + rising

Jan 16th Whooping cough going up

What are you doing?

1) Educate yourself.

- Best chance protect yourself + your family
- become an asset in the community
- carries a big responsibility

Anthem caused by vaccines - kids without shots - kids dying - untested theory

What is the flu? caused by virus

Virus - very tiny (nanometers)

DNA space capsule - with head, neck, collar, sheath, tail fiber, base plate

Virus can't replicate on its own (achilles heel)

Virus infecting cells on YouTube from NPR

1 trillion cells in your body
