

**We manufacture those:**

**Small,  
High tolerance,  
Light gauge,  
Labor intensive pieces**

**The parts everyone else  
turns away!**

**"It's what we do!"**

## **Asma, LLC**

**Providers of:**

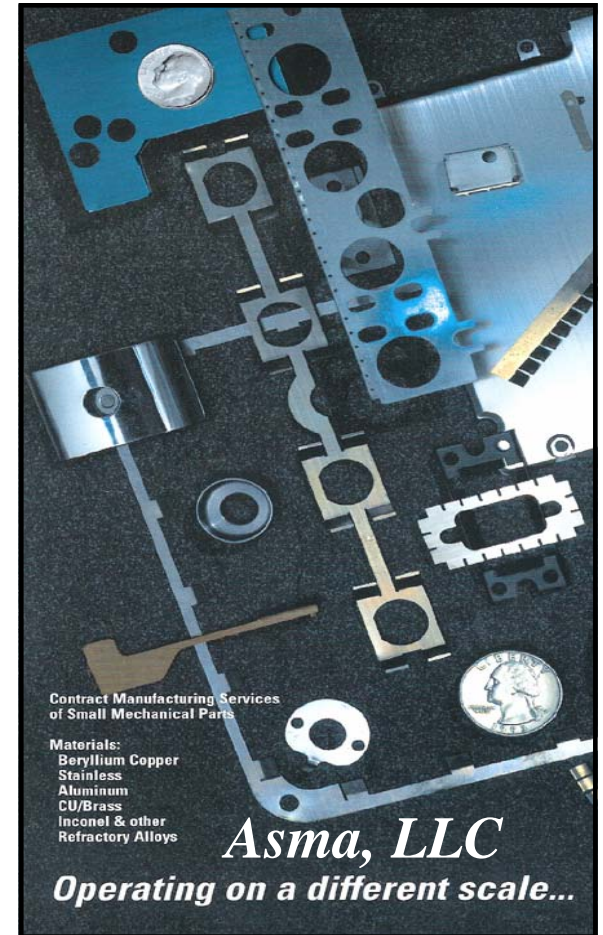

Contract manufacturing services of  
small mechanical parts.

World Class Press Brake training,  
Punch press and Laser training  
Textbooks, Software

The Publisher of:

***The  
Precision  
Sheet Metal Chronicle***

## Extremely tight tolerances?

Your quality is assured  
with a  
Scherr-Tumico 3500-3550  
Optical Comparator  
and the  
Quadra-check 221  
digital readout

## FEATURING

Toyokoki brand  
electric press brake with  
repeatability in  
Microns.

The forming completed by Steven D. Benson, author of seven textbooks on precision press brake operation and programmer of ASMA 5.0 software; software producing the most accurate bending data available.

Besides being principal of Asma LLC Mr. Benson is the Chairman of FMA's precision sheet metal technology council.

Asma also publishes the Precision Sheet Metal Chronicle the worlds first on-line magazine dedicated to the precision sheet metal trade; now in its 10th year of publication!

## Getting the most from your Press Brakes?

**Asma, LLC** can help!

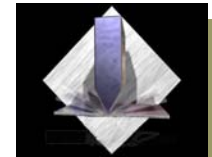

Getting the most from your press brakes requires a thorough understanding of the math behind sheet metal fabricating.

### **The Precision Press Brake Operation Workshop**

Explains how to build a skill set that will let you step up for today's tougher productivity and quality challenges.

Whether you operate a press brake or design bent parts, you can gain more know-how at this information-packed workshop than from years on the job.

And for those small parts requiring a higher skill level let us do the forming for you!
