

Configuring the EHR

Component 11 Unit 5: Health Summary and Clinical Reminder Reports

This material was developed by Oregon Health & Science University, funded by the Department of Health and Human Services, Office of the National Coordinator for Health Information Technology under Award Number 1U24OC000015.

Quality Reporting

- Improves quality of care, patient safety and efficiency.
- Highlights collection of quality data.
- Provides efficiency and consistency through structured routine reports.
- Provides flexibility through ad hoc reporting.

Version 2.0/Spring 2011

3

Clinical Reminders

- Uses the EHR system to identify Lab tests, procedures or other important activities that may be overlooked.
- Can be more effective and efficient than only using manual oversight.
