

## Unit 3: Reliability, Culture of Safety, & HIT

This material was developed by Johns Hopkins University, funded by the Department of Health and Human Services, Office of the National Coordinator for Health Information Technology under Award Number 1U24OC000013.

---

---

---

---

---

---

---

---

### Objectives

- Discuss reliability as a tool for ensuring safety
- Examine how ultra-safe organizations operate
- Identify how teams make wise decisions

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

2

---

---

---

---

---

---

---

---

### Reliability

Video 1

---

---

---

---

---

---

---

---

## Reliability

Evaluate    Calculate    Improve

Component 12/Unit 3                      Health IT Workforce Curriculum  
Version 2.0/Spring 2011                      4

---

---

---

---

---

---

---

---

## Reliability

Prevent Failure

- Best practice guidelines, tools, techniques
- Awareness campaigns
- Memory aids
- Checklists
- Making the desired action the default

Component 12/Unit 3                      Health IT Workforce Curriculum  
Version 2.0/Spring 2011                      5

---

---

---

---

---

---

---

---

## Reliability

Identify and Mitigate Failure

- Reduce fatigue and distraction
- Standing orders for best practice treatments
- Electronic flags
- Independent double-checks

Redesign for Success

- Understand where the failure is occurring
- Determine the remedy

Component 12/Unit 3                      Health IT Workforce Curriculum  
Version 2.0/Spring 2011                      6

---

---

---

---

---

---

---

---

## High Reliability Organizations

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

7

---

---

---

---

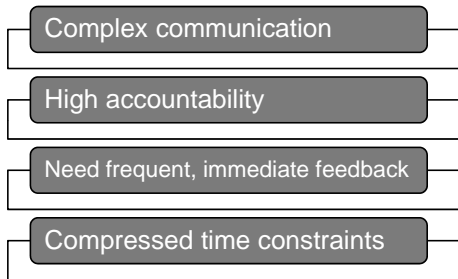

---

---

---

---

## High Reliability Organizations

8

---

---

---

---

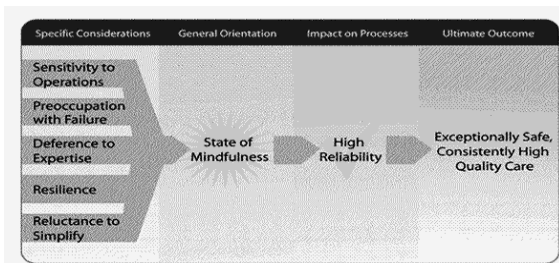

---

---

---

---

## High Reliability Organizations Mindfulness

<http://www.ahrq.gov/qual/hroadvice/hroadvicefig1-6.htm>

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

9

---

---

---

---

---

---

---

---

## High Reliability Organizations Sensitivity to Operations

Be aware of the context of care.

<http://www.ahrq.gov/qual/hroadvice/hroadvicefig1-6.htm>

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

10

---

---

---

---

---

---

---

---

## High Reliability Organizations Reluctance to Simplify

Keep things simple.

<http://www.ahrq.gov/qual/hroadvice/hroadvicefig1-6.htm>

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

11

---

---

---

---

---

---

---

---

## High Reliability Organizations Preoccupation with Failure

Be preoccupied with failure. Don't rely on good brakes to save you every time.

<http://www.ahrq.gov/qual/hroadvice/hroadvicefig1-6.htm>

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

12

---

---

---

---

---

---

---

---

## High Reliability Organizations Deference to Expertise

<http://www.ahrq.gov/qual/hroadvice/hroadvicefig1-6.htm>

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

14

---

---

---

---

---

---

---

---

---

---

## Culture

“the shared perceptions of the individuals within the team or an organization about what is good, right, important, valued, supported, or expected at any given time.”

Riley W. et al (2010)

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

15

---

---

---

---

---

---

---

---

---

---

## The Blame Game

Pointing the finger at people rather than systems

Image: MS Clipart

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

16

---

---

---

---

---

---

---

---

## Blame

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

17

---

---

---

---

---

---

---

---

## Blame

- Limits learning
- Increases likelihood of repeat errors
- Drives self-reporting underground

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

18

---

---

---

---

---

---

---

---

## Just Culture

- Focuses on identifying and addressing systems issues that lead individuals to engage in unsafe behaviors
- Maintains individual accountability by establishing zero tolerance for reckless behavior
- Distinguished between human error, at-risk behavior, and reckless behavior
- Response to error or near miss is predicated on the type of behavior associated with the error, not the severity of the event

<http://psnet.ahrq.gov/primer.aspx?primerID=5>

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

19

---

---

---

---

---

---

---

---

## How to Promote a Culture of Safety

Accept responsibility

Value learning from mistakes

Learn to recognize risky behaviors

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

20

---

---

---

---

---

---

---

---

## How to Promote a Culture of Safety

Speak up if something is not right

Listen to others & discuss ways to prevent error

Take action to reduce risk

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

21

---

---

---

---

---

---

---

---

## How to Promote a Culture of Safety

Report errors & near misses

Encourage others to report errors & near misses

Help change unrealistic policies

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

22

---

---

---

---

---

---

---

---

## Culture of Safety Characteristics

Carefully LISTEN to the concern to determine if corrective action is necessary

Recognize when a concern is expressed by anyone and STOP

Component 12/Unit 3

Health IT Workforce Curriculum  
Version 2.0/Spring 2011

23

---

---

---

---

---

---

---

---

## Culture of Safety
